Nat King Cole Generation Hope - Vibe Volume 1

Our Mission

Our mission is simple, but profound in the effect it has on the lives of children. The focus is to provide for music education in all forms, for children and schools with the greatest need and fewest resources. In addition we will fund children with special needs.

Nat King Cole Generation Hope provides music education including but not limited to musical equipment, music instruction, and music technology. In addition the foundation offers mentoring and teaching programs to insure children can have the opportunity and joy of music in their lives.

Our goal is to expand these programs into major urban areas throughout America. Nat King Cole Generation Hope will increase our fund raising efforts through private donations, corporate gifting, grants and various on going fund raising events. Funding will also be used to establish scholarships for outstanding students.

The Dream: Establishment of Nat King Cole Music Rooms and Performance Centers offering state of the art facilities to schools and students who share our vision that music is a universal language. Nat King Cole Generation Hope wants to ensure that students soar and reach their greatest

potential. We believe that our father's legacy will live on for generations to come.
